

After School Care

Providence Academy offers an after school care program for elementary students and a supervised study hall for secondary students:

Elementary students can enjoy a fun, safe environment, with opportunities for snacks, scheduled homework time, special presentations, games, puzzles, art, and, weather permitting playground time. After school students are also able to attend home ballgames and support the "Knights" in athletic competitions. Elementary after school is available daily in the school cafeteria from 3:00 p.m.-5:30 p.m.

Secondary students are required to report to supervised study hall if they remain on the PA campus after 3:30 p.m. There is an additional fee for this program. Details of this program are provided to parents of secondary students.

Registration forms (elementary), fee structures, and additional information are available to PA families during fall orientation.

Elementary after school and secondary study hall are *available only for full school days*. The programs are not available on any early dismissal day.

Providence Academy does not operate a *drop-in* or *as needed* after care program. The program and its fee structure are based on monthly usage by enrolled families.
