

Seven Year Cycle for Elementary Art Technique/ History/Appreciation

The Providence Academy Elementary Art Department is set up on a seven year cycle meant to give Grades K-6 a broad overview of the scope of Art History and a complete and varied experience in different art media. These seven years are set up in the following way:

*Prehistoric/Egyptian

*Greek/Roman

*Renaissance

*American

*Baroque

*French Impressionist/Post-Impressionist

*Contemporary/Modern

Each kindergarten class begins wherever the cycle is at their point of entry and finish at their 6th grade year. This gives them a complete and broad picture of Art History and a hands on experience with both 2-D and 3-D art projects. Drawing is the basis for each project. The process of art is emphasized to make confident and independent life long creators.
